Hurricane screens are manufactured per Florida Product Approval #FL 8637. FL8637 is only valid when products are ordered and/or installed according to the Product Approval. Products ordered and/or installed outside the scope of the Approval require site specific engineering (SSE) for use as a hurricane protective system. Design professionals may use the Approval noted herein as a basis for SSE. Determination of use is the sole responsibility of purchaser.

Warranty is void for any service or functionality related issues or damage that may arise from non-standard screens. Non-standard screens include, but are not limited to:
•Hurricane Screens outside the Florida Product Approval;
•Any screen ordered outside the recommendations in the Fenetex Design Guide (examples include: very wide screens may have excessive deflection in the reel tube causing wrinkles in the screen, very tall screens may not roll up evenly, very narrow screens may not have enough weight to operate smoothly, very large screens may not withstand as much wind load and may be more prone to damage as a result);
•Any screen using a manual gear (may back roll on reel and damage screen);
•Any clear screen made outside Fenetex's recommended layout (screen may stick to itself when rolled up).
Other warranty items for materials and workmanship remain in effect except where excluded herein.
